Target Market

4:59 Government Solutions specializes on small to medium sized government agencies and companies by customizing solutions in order to meet their unique requirements for enterprise level solutions. Our solutions are scalable to meet future growth demands while using economies of scale to bring affordable price points. We manage the solution based on the customer needs throughout the life-cycle with supply chain management and warrantee processes. In so doing, we become an extension of the customer and have a vested interest in their success.

Strategic Partnerships

4:59 Government Solutions has entered into partner level relationships with Best in Class vendors such as Cisco, Microsoft, Symantec, Linksys, Motorola, Motion Computing, Lenovo, HP, Tohiba, Intel, AMD and Samsung. We choose these strategic vendors because they represent the best solutions among their competitors in their class. 4:59 Solutions is able to leverage these relationships to bring enterprise level customized solutions without the enterprise level price point.

Company Leadership

Toan Do, President and CEO

Mr. Do is a former United States Army Captain having proudly served our country for five years while stationed in Germany, forward-deployed to Kosovo, and The Old Guard, Fort Myer. He has extensive knowledge collaborating with the Department of Defense and has served the Federal Government arena for over 10 years. He is a Cisco Certified Network Engineer (CCNA) and Microsoft Certified Systems Engineer (MCSE). He holds a BA from the College of William and Mary and is a recognized Service Disabled Veteran.

In his capacity as a Company Commander in the United States Army Military District of Washington, Captain Do managed the IT network for the MDW and played a prominent role after the securing the communications networks in our nation's Capitol immediately after the terrorist attacks of 9/11. Captain Do was tasked with establishing the Network Operations Center integrating state and local first-responders with federal agencies. On 9/18 he deployed and led a small team of specialized communications experts to Ground Zero to coordinate the communications interoperability between the National Guard, FBI, CIA, NYPD, NYFD and

ancillary state and local agencies. As a member of the United States Army Reserves, Captain Do was charged with integrating the communications network during former President Reagan's funeral in Washington DC.

Upon leaving military service, Mr. Do joined Pfizer Pharmaceuticals where quickly climbed promoted finally leaving in 2006 as an Assistant District Manager; he was recognized as a top sales performer each year during his career at Pfizer.

Robert Peterson, CFO and COO

Mr. Peterson has over 8 years of capital markets and public accounting experience having worked in financial services advisory for KPMG, LLP and in capital markets and portfolio management for Friedman Billings Ramsey Group, Inc. Mr. Peterson holds a BS in Accountancy and Finance from American University and an MBA from the University of Maryland. Mr. Peterson has managed over \$7 billion in mortgage-related financial assets and has extensive experience in investment valuation, portfolio management, and accounting.
